

Pelmorex National Alert Aggregation & Dissemination System Official Document:

Title	NAAD System support for 3rd Languages
Document Type	Policy / Rule
Description	Identifies coding to support distribution of alerting information in languages other than English & French
Date	Effective June 9, 2010
Version	1.0 (corrected June 2, 2011)
Replaces	n/a
References	n/a

The NAAD System supports the issuance of Alert Messages in both official languages.

With the prior approval of the Pelmorex Alerting Governance Council (“Council”), additional codes may be supported from time to time.

Based on requests from Pelmorex Alerting Governance Council members the NAAD System will support only the following 3rd language coding at launch:

Third Language	Language Code
Cree	cr
Dene	chp
Inuinnaqtun	ikt ¹
Inuktitut	iu

Authorized Government Agencies are at all times responsible for ensuring that the content of the message is in the language identified by them when issuing an Alert Message.

**** End of Document ****

¹ Corrected June 2, 2011 – corrected typographical error in language code. Was listed as “itk” but should be “ikt”.
