

Pelmorex National Alert Aggregation & Dissemination System Official Document:

Title	Use of Digital Signatures by the NAAD System & Authorized Government Agencies
Document Type	Policy / Rule
Description	Explains policy governing the use of Digital Signatures by the NAAD System and/or Authorized Government Agencies.
Date	Effective June 9, 2010
Version	1.0
Replaces	n/a
References	See also NAAD System Technical Notice on Digital Signatures

So as to improve the security of the NAAD System data feeds made available to Last Mile Distributors, Pelmorex in consultation with the Alerting Governance Council has adopted the following policy:

1. Authorized Government Agencies may, at their sole discretion add a digital signature to the Alert Messages they deliver to Pelmorex's NAAD System. If implemented, this will allow for additional control over Alert Message security by Authorized Government Agencies over and above that provided by the NAAD System.
2. Pelmorex will add a digital signature to all Alert Messages it disseminates over the NAAD System.

Technical details regarding digital signatures are addressed separately in the document: NAAD System Technical Notice on Digital Signatures.
